APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the place of use of a portion of the waters of an underground source as heretofore granted under Permit 52066 is issued subject to the terms and conditions imposed in said Permit 52066 and with the understanding that no other rights on the source will be affected by the change proposed herein. It is understood that the amount of water herein granted is only a temporary allowance for pollution control as mandated by orders issued by the Nevada Division of Environmental Protection and subsequent correspondence with said agency. The right will cease to exist upon termination of clean up activity as determined by the Nevada Division of Environmental Protection. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and records of the measurement shall be submitted on an annual basis. It is also understood that this right must allow for a reasonable lowering of the static water level of permittee's well due to other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of water granted herein at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

The total combined duty of water under Permits 55064, 55065, 55066, 55067, 55068, 55069 and 55070 shall not exceed 226.3 million gallons annually.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to

exceed 0.134 cubic feet per second, but not to exceed 30.04

million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before April 5, 1992

Proof of completion of work shall be filed before May 5, 1992

Application of water to beneficial use shall be made on or before April 5, 1994

Proof of the application of water to beneficial use shall be filed on or before May 5, 1994

Map in support of proof of beneficial use shall be filed on or before N/A
